Polyester

Our Custom Polyester Lanyards have a vibrant fabric-look and are made from high quality polyester material with screen printing process.

Nylon

This are soft & smooth nylon material with silk screen printing. They have a shiny surface.

Woven

This Lanyards are manufactured from the woven polyester material, text or logo on lanyards are woven instead of printed. These stitched lanyards have the logos, designs, and messages embroidered into the polyester material which makes them hard wearing and long lasting.

Tubular

Custom Tube Lanyards are perfect to provide security and convenience to your guests, customers, students, and staff with your logos and name printed on them. They are made from loosely stitched polyester which are formed into cylindrical or tube shape. They have unique construction so silk-screen printing technique is used on the tube fabric.

Full Color

This Lanyard allow just about any image or complex art work to be printed over the entire surface of the lanyard. There is no limit to your design, colors, gradients, photographic images with dye sublimated high quality printing on both side.
